During September I went to 5 days of Assessors training. Many laws have changed, and since we are now part of New York State Taxation and Finance they have many different ideas. Attached is a copy of a post card I will be mailing out to all property owners in Candor. I believe an open house will give tax payers time to ask questions and get answers. Most of the inventory has been verified and data is entered on the County system. Many CRMS have been laid off, so we will not have as much support.

Respectfully Submitted,
