The NYSERDA solar grant is moving forward. Our project manager submitted a form to SHPO (State Historic Preservation Offices) stating that our solar thermal project will not negatively impact any historic structures.

Weltonville Fire Company attended a Planning Board meeting to request a Site Plan Review for their project. The project was submitted to the County because Section 239 of NYS General Municipal Law requires review by the County Planning Board.

New home construction is picking up. Variance request for setbacks, septic failures and other permits are being issued.

Respectfully Yours,
James Douglas, Code Enforcement Officer
